Dear Hiring Manager,

My name is Franco Rodrigo Miranda, and I am currently in the final year of a Software Development degree. I am applying for a **Junior Full Stack Developer** position, with a strong interest in **backend-oriented roles**.

I have hands-on experience developing **REST APIs using Python and FastAPI**, working with **relational databases**, and applying **object-oriented programming and SOLID principles**. I have also worked within **Agile environments**, using **Scrum** and **Kanban** for task organization and collaboration through GitHub.

My previous professional experience allowed me to develop strong **communication skills, teamwork abilities, and problem-solving skills**, which I now combine with my technical background in software development.

I am highly motivated to join a development team where I can contribute, continue learning, and grow professionally within the IT industry.

I would welcome the opportunity to further discuss my profile in an interview.

Kind regards,
 Franco Rodrigo Miranda
